Filed : September 9, 2003

For : COMPOSITION COMPRISING MINOCYCLINE AS AN EFFECTIVE
COMPONENT FOR PREVENTION AND TREATMENT OF DEMENTIA,
AND LEARNING AND MEMORY IMPAIRMENTS

RECORD OF INTERVIEWS

Commissioner for Patents
U.S. Patent and Trademark Office
Customer Service Window, Mail Stop AF
Randolph Building
401 Dulany Street
Alexandria VA 22314

Sir:

Applicants hereby make of record the telephone interviews with the Examiner on
January 5, 2006 and February 23, 2006.

During the January 5, 2006 telephone interview, the new matter objection was
discussed with the Examiner. In particular, it was pointed out that a review of the originally
filed application includes support for methods as included in the amendment to the
specification filed August 31, 2005. The Examiner agreed that there is support for the
method claims, and indicated that there should not have been an objection to the
amendment to the specification.

Moreover, Applicants note that the February 23, 2006 telephone call was a brief
telephone call wherein the Examiner was asked if he could comment on patentability of the

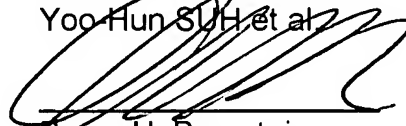

P24188.A05.DOC

method claims. The Examiner indicated that he would need to review the prior art, and could not comment on the patentability of the method claims without reviewing the prior art.

If any fee is required, this is authorization to charge any necessary fee to Deposit Account No. 19-0089.

Should the Examiner have any questions regarding this application, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Yoo Hun SUH et al.
